# One day conference on Ensuring Quality & Traceability of Medicinal Products

28 Sep 2024 | Aab Mahal | Radisson Blu Hotel, New Delhi Dwarka India

## About the conference

### Greetings from IPA-DSB

We are pleased to invite you to attend the one-day conference on "**Ensuring Quality & Traceability of Medicinal Products**," scheduled for 28<sup>th</sup> September 2024 at Aab Mahal, Radisson Blu Hotel, New Delhi Dwarka, India.

This conference will address the critical issues related to the quality and traceability of medicinal products, which pose significant threats to public health worldwide. The event will bring together experts, policymakers, and industry leaders to discuss current trends, innovative detection technologies, and regulatory measures aimed at preventing the distribution of not of standard quality drugs. It offers a unique opportunity for your organization to connect with up to 150 leading healthcare professionals from academia, research, industry, government, and the private sector. The Organizing Committee is working diligently to assemble a distinguished group of regulators, policymakers, and industry leaders from around the globe. Together, they will explore recent developments in addressing the pressing issues related to the quality and traceability of medicinal products. Through panel discussions and workshops, invited speakers will share knowledge and strategies to enhance drug safety, ensure supply chain integrity, and protect patients. This conference represents a crucial step towards global collaboration in addressing quality concerns of medicinal products. It promises to provide an engaging and informative program for delegates and offer valuable networking and business opportunities for sponsors through an interactive exhibition and a dynamic series of scientific events.

## Scope & Topics

The upcoming conference on "**Ensuring Quality & Traceability of Medicinal Products**" will focus on the critical challenges posed by substandard and low-quality drugs and their significant impact on global health. The event will convene experts from various fields, including medicine, regulatory affairs, law enforcement, public health, legal practice, and technology, to develop innovative strategies for ensuring the quality and safety of pharmaceutical products. Attendees will explore a comprehensive range of topics, including the latest global standards for drug quality, advancements in regulatory frameworks, and technological innovations in drug authentication and supply chain integrity. Emphasis will also be placed on the importance of stakeholder collaboration and public awareness in combating the proliferation of low-quality medicinal products. Through real-world case studies, the conference will provide valuable insights into successful interventions and strategies that have been effective in maintaining high standards in drug production and distribution. The conference aims to foster a collaborative environment where knowledge exchange and partnerships can drive global efforts to ensure that all medicinal products meet stringent quality and safety standards. By bringing together a diverse group of professionals, the event seeks to advance the collective understanding and implementation of best practices in pharmaceutical industry, ultimately contributing to the protection of public health.

## Conference Highlights

### Low Quality Drugs - A Menace in the Society

- Explore the profound impact of substandard drugs on public health and safety, socio-economic consequences and the urgent need for measures.
- Discuss global and local prevalence, health implications, and economic burden.

### Law Enforcement in Traceability of Medicinal Products

- Gain insights into the critical role of law enforcement agencies, cross-border cooperation, intelligence sharing, and regulatory support.
- Highlight successful strategies and case studies.

### Leveraging AI & Technology in Quality of Medicinal Products

- Discover cutting-edge technological advancements in detecting and preventing substandard medicinal products.
- Showcase innovative tools and methodologies like AI-driven analytics, blockchain, digital authentication techniques and their applications.

### Role of Community Pharmacist for Ensuring Quality of Drugs

- Understand the pivotal role of community pharmacists in preventing substandard drugs.
- Focus on effective strategies, awareness programs, and educational initiatives to safeguard public health with case studies, by identifying low-quality medicinal products.

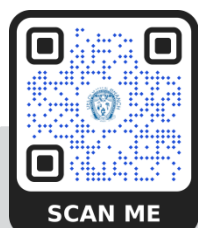

### Public Awareness for Substandard Drugs

- Explore the effectiveness of public awareness campaigns in educating communities.
- Discuss strategies for disseminating accurate information and fostering a culture of vigilance.

### Data Protection in the Healthcare Industry

- Examine the importance of data protection in the health care industry.
- Address challenges of safeguarding sensitive information in a digital world.
- Discuss data privacy regulations, secure handling practices, and cybersecurity measures.

- Join us for the above informative sessions that bring together experts, policymakers, and industry leaders.
- Share knowledge, strategies, and innovations aimed to ensure quality and traceability of medicinal products and enhancing the safety and security of the pharma industry.
- This conference is a unique opportunity to network with professionals, gain valuable insights, and contribute to the global fight against low quality medicinal products.

ORGANIZED BY:

## THE INDIAN PHARMACEUTICAL ASSOCIATION (DELHI STATE BRANCH)

The IPA-DSB is one of the most-vibrant State Branch of the Association having more than 500 members representing the wide spectrum of the pharma fraternity. IPA-DSB has been given “**Special Recognition Award**” for 2011 and “**Outstanding State Branch Award**” from 2018 to 2022 for excellent contribution in achieving the objectives of the Association. Also, the Delhi Branch established the first-of-its kind Pre-Pharmacy Club in a school in the year 2010. The IPA-DSB has also established five forums, viz. Regulatory, Industrial, Academic, IPR and Community & Hospital Forums in 2018 to give more platform to all the divisions of the pharmaceutical profession.
